

ANNUAL REPORT

**THE STATUS  
OF  
HIGHER EDUCATION  
IN  
TENNESSEE**

Including

The Tenth Annual Report on Progress toward  
the Goals of Tennessee Challenge 2000 for  
the State's Public Higher Education Institutions

and

The Seventh Annual Report on Contributions of  
the State's Independent, Regionally Accredited  
Higher Education Institutions

**Tennessee Higher Education Commission  
Richard G. Rhoda, Executive Director  
February 15, 2000**

2000

## **Commission Members**

A C Wharton, Jr., *Memphis*, Chairman

Wanda McMahan, *Knoxville*

John G. Morgan, *Nashville (Ex Officio)*

Debby Patterson Koch, *Nashville*

Steve Adams, *Nashville (Ex Officio)*

Riley C. Darnell, *Nashville (Ex Officio)*

Wm. Ransom Jones, *Murfreesboro*, Vice-Chairman

Dale Kelley, *Huntingdon*, Secretary

Joe E. Lancaster, *Columbia*

Tony Scott England, *East Tennessee State University*

June Scobee Rodgers, *Signal Mountain*, Vice-Chairman

J. V. Sailors, State Board of Education (*Ex Officio*)

Lisa Verble, *Sevierville*

Fred Patrick Gattas III, University of Tennessee *Memphis*

Brad Windley, *Tullahoma*

## **Executive Summary**

In 1989, the Tennessee Higher Education Commission established the *Tennessee Challenge 2000* annual report to demonstrate to the legislature and its constituency, the citizens of Tennessee, the commitment that the higher education community has to improved quality in higher education, its interest in fostering racial diversity and awareness, and its desire to be accountable to all the interested parties that surround and influence the course of higher education in Tennessee. Although the goals found in this document were formally established in 1989, they grew out of the legislative benchmarks for higher education developed in 1984. The *Tennessee Challenge 2000* goals mirror those established by the Southern Regional Education Board among its 15 member states.

The accountability measures found in *Tennessee Challenge 2000* are numerous indeed. A summary of the progress made since 1990 on specific goals contained in the report can be found on the following page. It should be noted that on virtually all of the goals originally set back in 1989, there has been steady, regular improvement. In addition, the recent inclusion of Tennessee's independent, regionally accredited institutions has added a greater dimension and relevance to the information contained in the report.

Through this and other assessment activities, e.g., performance funding, Tennessee continues to lead the way in developing usable accountability measures of higher education outcomes. The following list reflects significant accomplishments for 1999-00.

**During the past ten years (1990-91 through 1999-00), the following progress and contributions have been made in Tennessee Higher Education:**

***Enrollment and Persistence***

- ✧ Undergraduate enrollment in public institutions has increased by 10.6%.
- ✧ Undergraduate enrollment in independent institutions has grown by 9.2%.
- ✧ Over 87% of the total enrollment in public institutions are Tennessee residents.
- ✧ There has been a 15.0% increase in the number of Tennessee residents enrolled at independent institutions.
- ✧ Enrollment of undergraduate female students has grown by 15.4% in public institutions.
- ✧ Undergraduate enrollment of African-American students has increased by 36.4% from 1990 to 1999.
- ✧ Enrollment of African-American students in graduate programs in public institutions has risen 72.8% from 1990 to 1999.
- ✧ Transfer rates of students who graduate from public two-year institutions into public universities have declined slightly to 44.8% of graduates.
- ✧ Transfer rates of African-American students who graduate from public two-year institutions into public universities have increased to 46.8% of African-American graduates.
- ✧ Transfers from two-year public institutions to independent colleges and universities increased 44% between 1991-92 and 1996-97.
- ✧ Graduate and professional school enrollment in public institutions has grown by 13.2%.
- ✧ Graduate and professional school enrollment in independent institutions has grown by 49.47%.
- ✧ Persistence -to-graduation rates at public universities were 45.52% for the 1993 cohort.
- ✧ Persistence -to-graduation rates at two-year public institutions were 21.9% for the 1993 cohort.
- ✧ Persistence -to-graduation rates at public institutions of African-Americans have increased 8.6% since 1992.
- ✧ Persistence -to-graduation rates at independent institutions have increased to 54.3%.

***Remediation***

- ✧ The percentage of students needing any remedial or developmental coursework in all public institutions was 51.9% in 1996 and 50.0% in 1999.
- ✧ Compared to 1991, almost 2,000 fewer public university and community college students needed any remediation in 1999.
- ✧ The need for significant remedial or developmental coursework (more than one course) by entering college freshmen in public institutions was 25.8% in 1996 and 24.8% in 1999.
- ✧ Compared to 1991, almost 1,000 fewer public university freshmen needed significant remediation in 1999.
- ✧ Only 1.2% of entering freshmen in public universities who were recent high school graduates (freshmen 18 years of age or younger) took any remedial level coursework in Fall 1999.
- ✧ Only 29% of recent high school graduates (freshmen 18 years of age or younger) at public institutions took developmental coursework in Fall 1999.

### **Quality and Performance**

- ✧ ACT COMP average scores are slightly (2.3) below the national norm. College Base average scores continue to exceed the national norm.
- ✧ On most licensure examinations, 85% or more of test takers passed.
- ✧ Recognized accreditation bodies accredit approximately 98% of accreditable programs at public universities.
- ✧ Recognized accreditation bodies accredit all accreditable programs at public two-year institutions.
- ✧ Placement rates of vocational graduates at technology centers in 1998-99 were 85.8%.
- ✧ Placement rates of vocational graduates at two-year institutions in 1998-99 were 92%.
- ✧ Since 1993-94, expenditures on books have increased by 26%.
- ✧ Since 1992-93, almost a million volumes have been added to Tennessee public institutional library collections.

### **Teacher Education**

- ✧ Teacher education program completers of public and independent institutions have increased 23.9%.
- ✧ There has been a three-fold increase in African-American graduates from teacher education programs at public institutions.
- ✧ There has been a 10.0% increase in African-American graduates from teacher education programs at independent institutions.
- ✧ Public institutions account for 62% of teacher education program completers while enrolling 81% of undergraduates.
- ✧ Independent institutions account for 38% of the teacher education program completers while enrolling only 19% of undergraduate students.
- ✧ Over 96% of teacher education completers at public and independent institutions passed the National Teacher Examination in 1998-99.

### **Research and Public Service**

- ✧ Research expenditures at public institutions have risen by 13.8%; at independent institutions by 58.6%.
- ✧ Public service expenditures at public institutions have increased by 26.94%; at independent institutions by 99%.

### **Student Assistance**

- ✧ The average Tennessee Student Assistance Award at public universities was \$1,033, which represented 47.47% of total awards.
- ✧ For public two-year institutions, the average award was \$445, which represented 23.1% of total awards.
- ✧ For independent institutions, the average award received was \$2,675, which represented 16.7% of total awards.
- ✧ Funding for the Contract Education Program has declined since 1991-92.

## **Introduction**

### *Tennessee Challenge 2000*

Responding to an Act of the General Assembly in 1989, the Tennessee Higher Education Commission developed goals for public higher education in the state for the final decade of the 20th century. The Commission determined that an annual report, titled *Tennessee Challenge 2000*, would be made to the Legislature. In the Second Session of the 97th General Assembly, an act was passed (Public Chapter 739) which expanded the *Tennessee Challenge 2000* report. Incorporated in this publication is the seventh annual report on progress toward the goals of *Tennessee Challenge 2000*.

### Report on the Contributions of Independent Higher Education

In 1993, an Act of the General Assembly directed the Commission to produce a triennial study of Tennessee's independent degree-granting colleges and universities that are accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. The purpose of the study is to provide information to the Tennessee Higher Education Commission to assist it in incorporating the contributions of these independent higher education institutions into its statewide Master Planning efforts.

### A Combined Report

After evaluation of the Act, and after discussions with representatives of the Tennessee Independent Colleges and Universities, Commission staff determined that the results of the study could be most effectively incorporated into the annual *Tennessee Challenge 2000* report. Commission staff have recommended that, although the studies will focus on a three-year cycle of research and assessment, the results should be reported annually. This will allow a continuous and uninterrupted flow of information to the Legislature, Administration, and public of the State of Tennessee concerning the accomplishments of both of these components of higher education in the state. In future reports, information relating to other sectors of postsecondary education in the state will be incorporated into the annual report.

It should be noted that data for public institutions referred to in these reports are drawn from the state's higher education data system and is carefully edited and audited. Financial data are drawn from records of the Commission and the Department of Finance and Administration. Information for independent colleges comes from several sources, including the Tennessee Independent Colleges and Universities and surveys of self-reported data. Other data is drawn from IPEDS (Integrated Postsecondary Education Data Systems) collected by the U.S. Department of Education.

**Goal A: By the year 2000, Tennessee will be among the leading Southern states in providing college education to its citizens.**

**Benchmarks:**

**1. By the year 2000, the combined headcount undergraduate enrollment of public higher education institutions in Tennessee will be over 206,000 students.**

**Figure 1: Undergraduate Enrollment**

	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Public	154,959	163,882	170,409	171,170	168,366	169,745	171,244	170,902	170,872	171,448	10.6%
Independent	37,518	38,308	38,250	38,979	39,744	40,077	40,047	39,954	40,274	40,965	9.2%
Total	192,477	202,190	208,659	210,149	208,110	209,822	211,291	210,856	211,146	212,413	10.4%

Figure 1 presents the overall trend of undergraduate enrollment in public and independent higher education in Tennessee since 1990. These data do not include Tennessee Technology Centers enrollment that is addressed in another section of this report. Undergraduate enrollment since 1990 has increased over 10.6% at public institutions and 9.2% at independent institutions.

**Figure 2: Enrollment of Tennessee Students**

	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Public	157,015	165,501	172,316	174,316	172,035	174,099	175,540	175,466	174,292	174,113	10.9%
Independent	22,340	22,764	22,643	23,613	23,936	24,214	25,536	23,467	25,809	25,697	15.0%
Total	179,355	188,265	194,959	197,929	195,971	198,313	201,076	198,933	200,101	199,810	11.4%

Figure 2 reveals the distribution of Tennessee students between public and independent institutions in the state. These figures include graduate and undergraduate enrollments. The percentage of Tennesseans enrolled in public institutions decreased from 87.5% in Fall 1990 to 87.1% in Fall 1999. Of 51,332 students enrolled in independent institutions in Fall 1999, 25,697 (50.1%) were Tennessee residents. The percentage of Tennesseans enrolled in independent institutions has remained relatively stable. Of 193,652 students enrolled in public institutions in Fall 1999 (See Appendix A), 174,113 (89.9%) were Tennessee residents. This percentage also has remained relatively stable.

**Figure 3: Undergraduate Enrollment by Institution Type**

Type	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Public Universities	90,492	92,567	94,262	93,749	91,784	92,528	92,614	93,863	94,908	96,277	6.4%
Public Two-Year	64,467	71,315	76,147	77,421	76,582	77,217	78,630	77,039	75,964	75,171	16.6%
Independent	37,518	38,308	38,250	38,979	39,744	40,077	40,047	39,954	40,274	40,965	9.2%
Totals	192,477	202,190	208,659	210,149	208,110	209,822	211,291	210,856	211,146	212,413	10.4%

Figure 3 depicts the shift in enrollment between public universities and two-year institutions that has occurred since 1990. Enrollment at public two-year institutions has increased 16.6% while enrollment at public universities has only increased slightly. Independent institutions accounted for about 19.3% of the total undergraduate enrollment in Fall 1999.

**Figure 4: Undergraduate Enrollment by Gender for Public Institutions**

Gender	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Female	84,945	90,588	95,505	96,150	95,461	96,482	97,552	98,227	97,736	98,041	15.4%
Male	70,014	73,294	74,904	75,020	72,905	73,263	73,692	72,675	73,136	73,407	4.8%

Following a national trend, the rate of enrollment of female undergraduates in public institutions has increased at a faster rate than that of male students. This trend is seen in Figure 4. Female enrollment since 1990 has increased at over three times the rate of male student enrollment. In 1999, enrollment of female students has increased to 57% of the students in Tennessee public higher education institutions. The enrollment of male undergraduate students has increased only 4.8% since 1990.

This gender shift has not been as clear in Tennessee's independent colleges and universities. Female enrollment has been increasing at about twice the rate of male enrollment as shown in Figure 5. In 1999, enrollment of female students has increased to 57.2% of total enrollment.

**Figure 5: Total Enrollment by Gender for Independent Institutions**

Gender	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Female	24,308	24,508	24,714	25,148	26,207	26,740	27,028	27,554	28,105	29,143	19.9%
Male	20,146	20,725	20,488	21,244	21,520	21,875	21,776	21,660	21,864	22,190	10.1%

A complete listing of enrollments in Tennessee public and independent higher education institutions in Fall 1999 can be found in Appendix A. A table depicting the trend in enrollments from 1990 to 1999 may be found in Appendix B.

## **2. By the year 2000, 50% of recent high school graduates will enroll in public higher education institutions in Tennessee.**

One important means of improving the level of education of Tennessee's citizens is to encourage more high school graduates to attend college. Figure 6 indicates trends over the past three years in the enrollment of recent high school graduates.

The statistics found in Figure 6 are derived through indirect statistical methods. The figures are rough estimates since there is no exact means of tracing Tennessee high school graduates into college enrollment. Instead, the number of Tennessee residents 19 or younger is compared with the previous year's number of high school graduates at public institutions. At independent institutions, the number of first-time, full-time freshmen that are Tennessee residents is also compared to the previous year's high school graduates. The number of high school graduates does not include graduates of independent secondary schools and makes no adjustment for those students who enroll in out-of-state institutions. It is projected that, toward the end of the decade, administrative tracking systems being developed by the Tennessee Department of Education will allow improved linkage with the Enrollment Reporting System of the Tennessee Higher Education Commission. Estimates in past years by the Department of Education suggest that around half of Tennessee's high school graduates enroll in a college in the fall term following their graduation. Tennessee Higher Education Commission staff estimate that 5% to 10% of these students enroll in out-of-state institutions. It is not known how many others enroll in any college in later years. This number is not inconsiderable since today's high school graduates may work for several years before pursuing further education.

While the percentages in Figure 6 are only estimates, they are adequate to establish a trend. It is estimated that about 45% of 1998-99 Tennessee high school graduates matriculated at public institutions and almost 9% attended independent institutions in the state. The percentage of high school graduates who attend a Tennessee higher education institution has increased to 53.5% of recent high school graduates.

**Figure 6: Enrollment of Recent H.S. Graduates in Tennessee Colleges & Universities**

	1993	%	1994	%	1995	%	1996	%	1997	%	1998	%	1999	%
HS Grads	42,003		42,334		43,308		43,889		44,380		43,711		44,032	
Public *	17,413	41.46%	17,181	40.58%	18,337	42.34%	18,768	42.76%	19,274	43.42%	19,415	44.42%	19,667	44.67%
Indep **	3,957	9.42%	3,791	8.95%	4,162	9.61%	4,039	9.20%	3,723	8.39%	3,867	8.85%	3,876	8.80%
Total	21,370	50.88%	20,972	49.53%	22,499	51.95%	22,807	51.97%	22,997	51.82%	23,282	53.26%	23,543	53.47%

\* First-time freshmen with a Tennessee permanent address who are age 19 or younger enrolled in fall semester.

\*\* All first-time, full-time freshmen with a Tennessee permanent address enrolled in fall semester.

**3. By the year 2000, graduate and professional enrollment in public universities will be adequate to meet the human resource needs of business, industry, government, education, and research in Tennessee.**

**Figure 7: Graduate & Professional School Enrollment**

	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Public	19,457	19,936	20,983	22,172	22,472	22,514	22,870	22,625	22,538	22,024	13.2%
Independent	6,936	6,925	7,108	7,413	7,979	8,547	8,757	9,260	9,709	10,367	49.47%

Graduate and professional school enrollment in Tennessee's public institutions, as shown in Figure 7, has increased by 13.2% since 1990. Graduate and professional school enrollment has grown by 49.47% at independent colleges and universities. Over 30% of Tennessee's graduate and professional school enrollment is at independent institutions. Appendix C of this report gives a listing by academic area of enrollments in public graduate and professional schools.

**4. By the year 2000, headcount enrollment in the technology centers will reach 35,000 students per year. <sup>1</sup>**

**Figure 8: Technology Center Enrollment**

	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	% Change 1992-99
Headcount	30,930	30,970	29,668	29,215	28,699	28,777	28,994	31,035	1.00%
FTE	5,929	5,676	5,506	5,259	5,161	5,280	5,536	6,112	1.03%

As revealed in Figure 8, there was an increase in headcount and FTE enrollment at the technology centers in 1998-99. This increase reverses the decline seen throughout the 1990's and is an indication that the recent improvements to facilities have led to increases in both enrollment categories.

**5. By the year 2000, enrollment of students over the age of 25 in public universities and colleges in Tennessee will increase to 50%.**

**Figure 9: Undergraduate Enrollment by Age Group for Public Institutions**

Age Group	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Under 25	98,357	102,695	105,148	110,450	103,305	103,559	105,739	108,230	110,219	112,868	14.8%
25 to 30	22,837	24,615	26,045	23,313	25,849	26,442	27,358	26,700	25,868	25,008	9.5%
31 to 45	28,280	30,733	32,697	31,526	32,032	31,636	30,248	28,247	27,261	25,990	-8.1%
Over 45	5,482	5,837	6,519	5,881	7,165	8,108	7,876	7,707	7,522	7,572	38.1%

<sup>1</sup> In the original *Tennessee Challenge 2000* goals, the figure of 24,000 was projected as the average enrollment over four quarters. A more accurate gauge of technology center enrollment has been developed, a total unduplicated headcount of an entire year's enrollment. Based on this change, the goal has been changed to 35,000 students.

Enrollment patterns in the various age groups fluctuate from year to year. Currently, approximately 34% of undergraduate students are 25 years of age or older. These enrollment patterns are controlled by various factors, not the least of which is economic climate. In times of recession, citizens in the 20 to 30 years old group are most often affected by fluctuations in employment opportunities. When the economy moves out of a recessionary period, it is this group which first returns to the work force. The strategic master plan for Tennessee higher education, *Higher Education Uniting to Serve Tennesseans*, has a number of specific goals related to improvements in partnerships with business and industry to better serve adult students and the goal of lifelong learning. Figure 9 depicts enrollment trends in four age groups. Of particular interest is the increase in the participation of students, aged 25 to 45 at public institutions since 1990. However, it is important to note that the core enrollment at the undergraduate level remains the traditional student age 24 or younger, and projections point towards this trend continuing.

**Figure 10: Enrollment by Age for Independent Institutions**

Age Group	1994	% of Total	1995	% of Total	1996	% of Total	1997	% of Total	1998	% of Total	1999	% of Total
Under 26	35,872	75.2%	36,239	74.6%	36,383	74.6%	36,690	74.6%	36,999	74.0%	37,407	72.9%
26 to 29	3,600	7.5%	3,801	7.8%	4,128	8.4%	4,234	8.6%	4,301	8.6%	4,406	8.6%
30 to 45	6,328	13.3%	6,401	13.2%	6,051	12.4%	6,214	12.6%	6,514	13.0%	6,541	12.7%
46 and over	1,598	3.3%	1,599	3.3%	1,463	3.0%	1,495	3.0%	1,679	3.4%	1,880	3.7%
Not Reported	329	0.7%	557	1.1%	779	1.6%	581	1.2%	490	1.0%	1,098	2.1%

Enrollment patterns for independent colleges tend to give slightly more emphasis to traditional college-age (18 to 25) groups. Almost 73% of enrollment in independent colleges and universities in the state are under the age of 26. Figure 10 shows enrollment by age group in independent institutions since Fall 1994.

**6. By the year 2000, public universities in Tennessee will graduate at least 51% of students within six years of enrollment.**

Benchmark 6 and 7 both address persistence-to-graduation data and the reports on both are combined following Benchmark 7.

**7. By the year 2000, two-year institutions in Tennessee will graduate at least 35% of students within six years of enrollment.<sup>2</sup>**

Commission staff have done considerable research into methods of calculating persistence-to-graduation statistics for Tennessee's public institutions. In developing the statistics for this part of the report, a cohort is identified as all students enrolling as first-time, full-time, degree-seeking students in a particular fall term. This cohort also includes a small number of first-time, full-time freshmen who were enrolled in the previous summer term and returned in the fall. Graduation records for all state institutions are compared with the cohort for a six-year period. Any record of a successful completion is found and credited to the institutions that initially enrolled that student. Some examples: A student enrolling at a university or two-year institution who completes a degree at that institution is counted as a successful completion. A student enrolling at a two-year institution who transfers to a university and later receives a degree there is counted as a successful completion.

Formerly, calculation of persistence-to-graduation statistics for two-year institutions was traced only for a three-year period. This three-year period is reasonable for students who enter college relatively well prepared and who are able to attend full time. However, most

<sup>2</sup> Due to the change in methodology of calculating two-year college completion rates, explained on page 5, this goal has been changed from 25% of students within three years of enrollment to 35% of students within six years of enrollment.

students in Tennessee public two-year institutions are employed and only able to attend college on a part-time basis. Over 70% of students who ultimately graduate from such schools begin as part-time students. Additionally, it should be noted that these persistence-to-graduation statistics can be significantly impacted by changing employment status.

In addition, increased admissions requirements at universities and open-door admissions policies at two-year institutions have resulted in more students enrolling at two-year institutions who need moderate or extensive remedial or developmental coursework to prepare them for college-level work. Because of these factors, the methodology of calculating two-year college completion rates has been altered to allow for tracking students over six years after initial matriculation.

It must be recognized that completion statistics are, at best, estimates of the actual rates. Large numbers of students are not included in the cohort that is traced to completion. Those ignored by current calculations include any student who first enrolls as a part-time student (many of whom are employed) or any student who begins at an independent institution or an out-of-state institution and later transfers to a Tennessee public institution.

**Figure 11: Persistence to Graduation (Percent)**

	1987-93	1988-94	1989-95	1990-96	1991-97	1992-98	1993-99
Public Universities	43.28%	44.53%	46.06%	45.42%	44.19%	44.85%	45.52%
Public Two-Year Institutions	26.87%	26.34%	25.34%	25.86%	22.33%	22.17%	21.86%
Independent Institutions	52.30%	51.30%	51.65%	51.46%	53.68%	54.29%	*

\* Pending due to changes in IPEDS form/scheduling.

Figure 11 depicts completion statistics for public universities, two-year institutions, and independent institutions for the past six years. The public university persistence rate increased over the previous year. For public two-year institutions, there was a slight drop in the cohort persistence rate. Great care must be taken in interpreting graduation statistics, especially across different cohorts. It has been suggested that the reverse of these statistics can be regarded as a “drop-out” rate. That is not the case since graduation statistics are very limited in that they trace a particular cohort of students (full-time, first-time, degree-seeking) and trace them to completion. The statistics do not reflect other successful completions and/or transfers.

Completion rates for independent institutions, as shown in Figure 11, have increased to over 54% and compare favorably with national averages for such institutions. It should be noted that Vanderbilt University accounted for 20% of the independent cohort.

Much research has been done on factors that affect persistence-to-graduation rates. Among the most important factors are selectivity of admissions criteria, residence status of students, accessibility of faculty by students, and increased involvement of students in campus activities.

**Figure 12: Persistence at Technology Centers**

	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99
Number	4,930	4,798	4,751	4,793	4,527	4,417	5,057	4,518
Percent	52%	54%	55%	58%	59%	62%	61%	62%

Figure 12 shows completion rates at the state’s technology centers. There has been a fairly steady increase in their persistence rates since 1991-92. Appendix D presents detailed information by race for public universities and community colleges.

Much research has been done to determine factors which influence graduation rates, and one which seems to bear very strongly on these rates is an institution's ability to retain students from their initial enrollment as freshmen into their sophomore year. Most students who fail to graduate leave during the first year of college. Some of these students will return at a later date and these students are often successful at that stage. Figure 13 tracks student retention in Tennessee by identifying all full-time, first-time freshmen in Fall 1998 and identifying how many of that cohort were still enrolled in a public institution in Fall 1999. Almost three-quarters of the students in the initial cohort (first-time, full-time, degree-seeking) are enrolled at a public institution one year later.

**Figure 13: Retention from Freshman to Sophomore Year**

	Freshmen Fall 98	Return Fall 99	Return Percent
Public Universities	14,713	11,844	80.50%
Public Two-Year	8,774	5,240	59.72%
Totals	23,487	17,084	72.74%

**Figure 14: Degrees and Other Awards from Tennessee Institutions, 1998-99**

Institution Type	Certif.	Assoc.	Bach.	Prof.	Mast.	Ed.S.	Doct.	Total
Public Universities	35	390	13,936	740	4,829	148	466	20,544
Public Two Year	1,265	5,452						6,717
Public Total	1,300	5,842	13,936	740	4,829	148	466	27,261
Independent	15	410	7,780	668	2,134	370	258	11,635
Total	1,315	6,252	21,716	1,408	6,963	518	724	37,996

Figure 14 presents the numbers of graduates in public and independent colleges in the state for 1998-99. Appendices E, F, and G give detailed listing of awards by discipline area in state universities, two-year institutions, and technology centers. The data for independent institutions was compiled from the IPEDS Completions survey. It is important to note that independent colleges and universities in the state produce a number of professional degrees. These awards include professional degrees in Theology, which are not available at public institutions. Independent institutions accounted for 6.6% of associate degrees, 35.8% of bachelors degrees, 47% of professional degrees, 33.4% of masters/educational specialist degrees, 36% of doctoral degrees and 30.6% of all degrees awarded in 1998-99.

**8. By the year 2000, 75% of students completing university parallel degree programs at public community colleges will enroll in baccalaureate degree programs at state universities.**

**Figure 15: Transfers of Community College University Parallel Majors**

	1990-91	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99
Graduates	1,087	1,346	1,440	1,616	1,817	1,868	2,075	2,015	2,088
Fall Transfers	506	679	710	776	893	918	1,005	986	1022
Transfer Rate	46.55%	50.5%	49.3%	48.0%	49.1%	49.1%	48.4%	46.8%	48.9%

Figure 15 shows the rate of immediate transfer of community college graduates into the state universities since 1990-91. The state's twelve community colleges offer Associate of Arts and Associate of Science degrees, which are intended to prepare students for transfer into university level study. Referenced as university parallel programs, these accounted for only 27% of the total degrees and awards at two-year institutions in 1998-99. The tracking method currently in use to measure the success of these programs follows all two-year college graduates and identifies those who enroll at a state university during the fall term following their graduation. It must be recognized that a percentage of students in university parallel programs do not immediately enroll at a university following their graduation from a two-year college.

Complicating factors that can significantly impact these figures include local economic conditions and job opportunities of potential graduates. Another fact to be considered is that some students transfer without completing the two-year college program and receiving an associate degree. As shown in Figure 15, there has been a slight increase in the transfer rate of students who took advantage of the university parallel program since 1990.

The present generation of college students is far more mobile than were previous generations. It is not unusual for a student to attend two or more institutions before receiving a degree. The pattern of transfers is often pictured as occurring in only one direction, from two-year institutions to universities. However, it is increasingly common for students to transfer from a university to a two-year institution, often transferring back to the originating university or another institution at a later date. There are also other patterns including transfers between universities, transfers between two-year institutions, transfers between public and independent colleges, and out-of-state transfers. In any given fall term, between 10% and 15% of students who enroll in a Tennessee public institution were enrolled in another institution the previous year.

**Figure 16: Transfers to Public Universities**

From:	Fall 1990	Fall 1991	Fall 1992	Fall 1993	Fall 1994	Fall 1995	Fall 1996	Fall 1997	Fall 1998	Fall 1999	% Change 1990-99
Public Two-Year	2,406	2,627	3,074	3,463	3,390	3,597	3,598	3,850	3,985	3,989	65.57%
Public Universities	1,303	1,346	1,296	1,361	1,302	1,746	1,192	1,147	1,248	1,252	-4.22%
Independent	957	815	984	776	766	768	724	687	641	590	-38.35%
Out-of-State	3,249	3,807	3,486	3,648	3,729	3,383	3,695	3,455	3,231	3,076	-0.05%
Totals	7,915	8,595	8,840	9,248	9,187	9,494	9,209	9,139	9,105	8,907	12.53%

Figure 16 shows the patterns of transfers to the state's public universities. In 1999, almost 10% of the total undergraduate enrollment at public universities were transfer students. There has been a 65% increase in transfers from public two-year institutions and a 38% decrease in transfers from Tennessee independent institutions since Fall 1990.

**Figure 17: Transfers to Public Two-Year Institutions**

From:	Fall 1990	Fall 1991	Fall 1992	Fall 1993	Fall 1994	Fall 1995	Fall 1996	Fall 1997	Fall 1998	Fall 1999	% Change 1990-99
Public Universities	2,203	2,282	2,286	2,780	2,473	2,166	2,146	1,914	1,955	1,935	-12.17%
Public Two-Year	931	1,003	930	1,207	1,151	1,315	1,364	1,463	1,424	1,387	48.98%
Independent	693	690	661	769	723	648	643	596	544	522	-24.68%
Out-of-State	2,127	2,202	2,346	2,830	2,432	2,526	2,478	2,298	2,392	2,097	-0.01%
Totals	5,954	6,177	6,223	7,586	6,779	6,655	6,631	6,271	6,315	5,941	-0.002%

Figure 17 shows the patterns of transfers to public two-year institutions. Transfer students make up almost 8.0% of total enrollment. It is also significant that, in relation to total enrollment, almost one-third of all transfer students moving to a two-year institution come from four-year Tennessee public institutions. Both types of institutions accept a number of out-of-state transfer students each year. In all public institutions, out-of-state transfer students make up just over 34% of the total transfer enrollment. There has been a 49% increase in transfers among public two-year institutions and a slight decrease in transfers from out-of-state institutions to public two-year institutions since Fall 1990.

**Figure 18: Transfers Between Independent and Public Two-Year Institutions**

From:	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	% Change 1991-99
Independent to 2-year	661	769	723	648	643	596	544	522	-21.03%
2-year to Independent	1,242	1,360	1,355	1,453	1,559	1,770	1,797	1,865	50.16%

There is also considerable transfer activity between the independent sector and public two-year institutions. Figure 18 shows that activity since 1991-92. In this period, transfers from two-year public institutions to independent institutions increased over 50%. Transfers from independent to two-year public institutions decreased during the same time period. Appendices H and I provide more detailed information on the transfer activity for Fall 1999 for public institutions.

**9. By the year 2000, the racial composition of enrollments in public higher education institutions will be sufficient to ensure that all Tennesseans, regardless of race, will have access to higher education.**

**Figure 19: Undergraduate Enrollment by Race for Public Institutions**

Race	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Black	21,881	24,280	25,936	26,498	26,646	26,887	27,884	28,240	29,115	29,835	36.35%
White	129,400	135,536	139,884	139,873	136,779	136,264	137,313	136,162	134,992	134,326	3.81%
Other *	3,678	4,066	4,588	4,799	4,941	6,594	6,047	6,500	6,765	7,287	98.12%

\* Includes Asian, American Indian, Alaskan Native, Hispanic, and students who did not report a race.

Enrollment of African-Americans in public institutions continues to increase. In 1999, there were 29,835 African-Americans enrolled as undergraduates and 2,697 enrolled as graduate or professional students. Figure 19 shows the undergraduate enrollment patterns by race since 1990. It can be seen that the percentage of African-American undergraduate students has risen from 14.1% in 1990 to 17.4% in Fall 1999. African-Americans account for 16.8% of the state's population. During that same period, the enrollment of White students has declined from 83.5% in 1990 to 78.3% in 1999.

**Figure 20: Graduate & Professional School Enrollment by Race for Public Institutions**

Race	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Black	1,560	1,589	1,751	1,926	2,117	2,197	2,324	2,450	2,617	2,697	72.88%
White	16,460	16,734	17,556	18,442	18,571	18,499	18,734	18,334	17,957	17,396	5.69%
Other *	1,437	1,613	1,676	1,804	1,784	1,818	1,812	1,814	1,964	2,111	46.90%

\* Includes Asian, American Indian, Alaskan Native, Hispanic, and students who did not report a race.

Figure 20 indicates the growth in graduate and professional school enrollment since 1990 by race at public institutions. Enrollment of African-American students in these schools has increased from 8.0% in 1990 to 12.1% in 1999. Enrollment of White students has declined from 84.6% in 1990 to 78.3% in 1999. Other race enrollment (primarily Asian and Hispanic) has remained relatively steady at public institutions; less than 4% of undergraduate and around 8% of graduate and professional enrollment. Appendix J contains an analysis of African-American enrollment in public institutions since 1990.

**Figure 21: Total Enrollment by Race for Independent Institutions**

Race	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1990-99
Black	6,668	6,607	6,507	6,736	6,701	6,434	6,181	5,874	5,899	6,689	0.3%
White	35,120	35,663	35,398	36,163	36,959	37,630	37,982	38,552	38,703	39,413	12.2%
Other *	3,007	2,945	3,297	3,493	4,067	4,533	4,641	4,788	5,381	5,231	73.9%

\*\* Includes Asian, American Indian, Hispanic, foreign-born and students who did not report a race.

Note: Beginning in 1997, Knoxville College, a historically black institution, is not included.

Figure 21 shows a history of enrollment by race in independent institutions since Fall 1990. Enrollment of African-American students in the independent sector is comparable to that of public institutions. Over 12% of total Fall 1999 enrollment in independent

institutions is African-American. A fairly high proportion of that enrollment is in five historically Black institutions. Beginning in 1997, Black student enrollment figures reflect the exclusion of Knoxville College, a historically Black institution.

**Figure 22: Technology Center Enrollment by Race**

Race	1992	1993	1994	1995	1996	1997	1998	1999	% Change 1992-1999
Black	3,155	3,139	3,091	3,231	3,104	3,421	3,411	3,890	23.3%
White	27,448	27,446	26,154	25,564	25,160	24,761	25,008	26,525	-0.03%
Other	327	385	423	420	435	595	575	620	89.6%

Enrollment of Black students in the technology centers, as shown in Figure 22, has increased 23.3% from 1992 to 1999. Enrollment of other race students that include Asian, American Indian, Hispanic, and students who did not report a race have increased over 89% since 1992.

**10. By the year 2000, rates of persistence to graduation will be the same for Blacks as for other racial groups.**

**Figure 23: Persistence to Graduation by Race (Public Institutions)**

		1986-92	1987-93	1988-94	1989-95	1990-96	1991-97	1992-98	1993-99	% Change
Universities	Black	27.80%	30.47%	31.42%	31.97%	34.68%	34.59%	35.47%	36.43%	8.63%
	White	45.96%	45.61%	47.39%	48.99%	47.61%	46.34%	46.81%	47.35%	1.39%
Two Year	Black	9.96%	13.22%	13.74%	12.90%	15.34%	11.13%	12.58%	11.37%	1.41%
	White	29.00%	30.00%	29.09%	28.08%	27.43%	24.86%	24.36%	24.42%	-4.58%

Figure 23 shows the persistence rates for six different cohorts starting with the 1986 cohort. The university persistence rate for African-American students has increased 8.63% since the 1986 cohort. At two-year institutions, there was a 1.41% increase in African-American student persistence compared to 1986. It is important to note that the persistence rate of African-American students has grown at more than three times the rate of White student persistence. White student persistence has remained relatively constant since the 1986 cohort with the two-year institutions experiencing a decline in recent years. These two phenomena combined have resulted in a reduction in the gap between African-American and White persistence-to-graduation rates.

**Goal B: By the year 2000, Tennessee will be a national leader in improving the quality of instructional programs and demonstrating this improvement through statewide and institutional assessment.**

**Benchmarks:**

- 1. By the year 2000, the average ACT COMP scores of graduates of Tennessee's public universities will average 188.5.**

**Figure 24: General Education Outcomes Averages**

		1990-92	1993	1994	1995	1996	1997	1998	1999
ACT COMP	Tennessee	182.2	181.8	183.1	181.6	180.8	180.4	180.6	179.6
	Norm Group	183.1	180.1	180.1	180.1	181.9	181.9	181.9	181.9
COLLEGE BASE	Tennessee	--	306.4	308.0	310.3	309.4	309.3	305.6	305.4
	Norm Group	--	304.7	300.0	304.0	306.0	305.0	303.0	302.0

Figure 24 shows the general education outcome scores compared to the norm group for the two approved tests: ACT COMP (American College Testing College Outcomes Measures Program) and College Base (published by Riverside Publishing Company) since 1990. ACT COMP scores have declined slightly since 1992. For the College Base examinations, Tennessee institutions continue to be above the norm group. Appendix K provides scores for each institution on the ACT COMP or College Base for the past three years.

Additional reports that are related to this goal are presented in the appendices. They are:

Appendix L - This provides a comparison of the percentages of students accepted into institutions who applied for admission and the percentages of students admitted and enrolled under regular and alternative methods. In Fall 1999, Tennessee's public universities accepted a higher percentage of students from those who applied for admission than they did in 1998. In Fall 1999, 28,706 (74.9%) were accepted from the 38,343 who applied. In Fall 1998, 28,452 (75.9%) were accepted from the 37,472 who applied for admission. Alternative admissions were slightly lower compared to 1998. In Fall 1999, 1,060 students (3.7.8%) were accepted through alternative means. In Fall 1998, 1,095 (3.8%) were accepted through this method.

Appendix M - This indicates average ACT scores of entering students for each institution. These scores are taken from ACT reports and reflect the average entering score for all students who took the ACT Examination and who were accepted by the institution in Fall 1999.

Appendix N - This indicates the numbers and percentages of students enrolled in remedial and developmental courses. Reports on remedial and developmental coursework can sometimes be subject to misinterpretation since they do not separate the student who merely needs one course, perhaps a writing course or a refresher math course, from the student who needs significant course work in order to be fully ready to begin college work. In the three rightmost columns of Appendix N an attempt is made to look only at students who need significant help; that is, who are taking more than one remedial or developmental course. Other columns in Appendix N also contain relevant information. The total number of students enrolled in remedial or development coursework from 1997 through 1999 are found in the fifth, sixth, and seventh columns of the chart. In all institutions, the total percentage of students enrolled in any amount of remedial or developmental coursework has declined from 51.9% in 1996 to 50.1% in 1999. Since 1990, the percentage of students needing significant remedial or developmental coursework has declined over 7%. This percentage means that almost 2,000 fewer first-time freshmen enrolled in remedial or development coursework in Fall 1999 compared to Fall 1990.

Appendix O shows the need for remedial or developmental coursework of students 18 years of age or younger. These are students who graduated only three months before matriculation into college. Figure 25 is a summary of data in Appendix O. It should be noted that almost three-quarters of recent high school graduates needed no remedial or developmental coursework. In all institutions, less than 3% of students were taking only remedial coursework, 29.32% were taking only developmental coursework and 7.84% were taking a mix of remedial/developmental courses.

**Figure 25: Need for Remedial or Developmental Coursework of 1999 High School Graduates**

	Taking No R&D	Taking Only Developmental	Taking Only Remedial	Taking Mix of R&D
Universities	72.87%	23.41%	1.20%	2.52%
Two-Year Institutions	33.43%	41.83%	5.64%	19.10%
All Levels	60.21%	29.32%	2.63%	7.84%

- 2. By the year 2000, passing rates on professional licensure examinations of graduates of Tennessee's public higher education professional schools will remain above national levels.**

Figure 26 includes national licensure examination pass rates for 1997 through 1999 at public universities. The percentages shown in this figure are weighted averages of the information found in Appendix P. It should be noted that the cut-off scores for these examinations can change over time as well as the test content and/or structure which makes comparisons across years difficult. In most cases, at least 85% of test takers passed these national examinations. Passing these exams is required for practicing in these professions. The national pass rate for the nursing exam was 87.8%; for the engineering exam it was 69%. The national norms for many of these tests are no longer being published.

**Figure 26: National Licensure Examinations Pass Rates**

Licensure Exam	1997		1998		1999	
	Number	Percent	Number	Percent	Number	Percent
Medical Technology	34	87.8%	24	91.8%	22	91.0%
Dental Hygiene	62	95.1%	70	89.9%	59	91.5%
Engineering	615	77.4%	683	74.7%	531	77.4%
Nursing	508	91.0%	674	90.4%	448	90.3%
Law *	--	--	337	84.9%	290	84.8%
Dentistry	81	99.0%	74	100.0%	69	100.0%
Pharmacy	68	98.5%	71	100.0%	98	99.0%
Physical Therapy	88	97.7%	99	90.9%	96	92.7%
Medical, Step I	223	94.6%	216	93.5%	211	89.9%
Medical, Step II	206	97.3%	220	95.6%	180	95.6%
Medical, Step III	190	97.3%	193	93.5%	192	95.7%

\* Due to changes in testing agency procedures, complete scores for 1997 are not available.

- 3. By the year 2000, 75% of students completing university parallel degree programs at public community colleges in Tennessee will enroll in baccalaureate degree programs at state universities.** (See Goal A, Benchmark 8 for data concerning transfer rates.)
- 4. By the year 2000, rates of transfer from public community colleges to state universities in Tennessee will be the same for Blacks as for other racial groups.**

Figure 27 reveals transfer rates for African-American students who took advantage of the university parallel program and transfer rates for the total population of students who took advantage of this program. In 1990-91, only 26 African-American graduates of two-year institutions' university parallel programs transferred to universities. These 26 students represented only 29% of two-year college graduates who subsequently transferred. In 1999, 107 students representing 50.2% of African-American graduates transferred from university parallel programs.

**Figure 27: Transfer Rates by Race-University Parallel Majors-Community Colleges**

	1990-91	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99
<b>Black Only</b>									
Graduates	90	120	137	161	193	229	256	216	213
Fall Transfers	26	56	65	56	81	104	102	101	107
Transfer Rate	28.89%	46.67%	47.45%	34.78%	41.97%	45.41%	39.84%	46.8%	50.2%
<b>Total</b>									
Graduates	1,087	1,346	1,440	1,616	1,817	1,868	2,075	2,105	2,088
Fall Transfers	506	679	710	776	893	918	1,005	986	1022
Transfer Rate	46.55%	50.45%	49.30%	48.02%	49.15%	49.14%	48.43%	46.8%	48.9%

5. **By the year 2000, a Superior Teaching Program will be fully funded and implemented across the state.** (See Goal F, Student Financial Aid section for available award programs.)
6. **By the year 2000, cumulative collections of materials in libraries at Tennessee public institutions will be current and these libraries will be able to provide ready access to materials necessary to support their instructional and research needs.**

**Figure 28: Expenditures on Books**

	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	% Change 1993-1999
Volumes Added	147,047	143,057	163,020	147,003	145,790	138,124	-6.10%
Expenditures on Books (X 1000)	\$6,863	\$8,108	\$7,584	\$8,599	\$7,870	\$8,623	25.64%

A very important indicator of an institution's commitment to currency in its library collection is the number of volumes purchased in a given year. Figure 28 compares the number of volumes added to collections in 1993-94 with those added during the past years in all public colleges and universities in the state. Volumes added have declined in 1998-99 while expenditures increased over 1996-97. One factor that may contribute to reduced book volume is the increased use of technology (e.g., electronic databases, web-based research resources) on campuses.

### Other Benchmarks of Quality

One important area is the accreditation of academic and professional programs. Figure 29 reports the status of accreditation of specialized programs in public institutions. Appendices Q and R list accreditation by discipline for all public higher education institutions. All specialized programs at two year institutions are accredited; 98% of these programs are accredited at public universities.

**Figure 29: Accreditation**

	Accreditable	Accredited	% Accredited
Universities	365	356	97.53%
Two-Year Institutions	80	80	100.00%

Job placement rates for vocational programs at Tennessee's two-year colleges and technology centers may be found in Appendix S. Two-year institutions had a 92% placement rate for 1998-99. Technology Centers had an 86% placement rate for 1998-99.

Legislation requires that this report present the numbers of students enrolled at correctional institutions. In Fall 1999, there were 54 students enrolled at sites identified as correctional institutions. This number represents less than one-half of one percent of the total enrollment. It cannot be said with assurance that all these students are inmates since guards and other correctional employees may also enroll in these courses.

Figure 30 reports the percentage of lower-division courses taught by various faculty for 1998-99. Full or part-time faculty taught most courses with 79.5% at University of Tennessee campuses, 81% in Tennessee Board of Regents universities, and 95.7% in two-year institutions. A report by institution can be found in Appendix V for all public universities and community colleges. These rates have not changed much in recent years.

**Figure 30: Percent of Courses Taught by Various Faculty**

	<b>Full-Time Faculty</b>	<b>Part-Time Faculty</b>	<b>Grad Asst</b>	<b>Other Staff</b>
TBR Univ.	56.7%	22.8%	14.3%	6.2%
Univ. of TN	62.6%	19.1%	15.4%	2.1%
TBR Two-Year	54.7%	41.0%	0.0%	4.2%

**Goal C: By the year 2000, Tennessee's colleges and universities will be among the nation's leading institutions in preparing graduates with the knowledge and skills essential for effective teaching.**

**Benchmarks:**

- 1. By the year 2000, 1,800 individuals will complete teacher education programs in Tennessee public universities each year. Of that number, 396 (22%) will be Black.**

**Figure 31: Teacher Education Completers**

		1990-91	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	% Change 1990-98
Public	Total	1,379	1,799	1,571	1,448	1,356	1,571	1,605	1,731	25.52%
	Black	54	61	78	79	79	123	123	141	161.11%
Independent	Total	883	891	846	746	816	861	1,007	1,071	21.29%
	Black	37	43	36	39	48	37	34	41	10.89%
Total	Total	2,262	2,690	2,417	2,194	2,172	2,432	2,612	2,802	23.87%
	Black	91	104	114	118	127	160	157	182	100.00%

Figure 31 is a report on teacher education completers since 1990-91. This table does not include persons seeking graduate degrees but does include all baccalaureate program completers and those completing teacher education requirements who already possess a degree. At public institutions, there has been a 25.5% increase in the number of completers compared to 1990-91. African-American completers have increased substantially since 1990-91 at public institutions. At independent institutions, there has been a 21.3% increase in the number of completers and a 10.9% increase in African-American completions. Approximately 38% of teacher education program completers were from independent institutions.

- 2. By the year 2000, 95% of teacher education graduates in Tennessee's public universities will pass the NTE or an equivalent examination.**

**Figure 32: National Teacher Exam (NTE) Pass Rate**

		1989-90	1990-91	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99
Public	No. Passed	1,640	1,486	1,668	1,676	1,608	1,521	1,727	1,704	1,716	1,708
	% Passing	96.59%	94.68%	87.61%	91.99%	94.81%	95.17%	95.68%	98.38%	95.12%	96.02%
Independent	No. Passed	742	855	912	841	798	780	879	907	876	938
	% Passing	89.83%	96.84%	87.17%	92.93%	95.11%	93.08%	95.11%	95.47%	95.84%	95.91%

Note: pass rate declined in 91-92 due to changes in cut-off scores.

Figure 32 contains statistics concerning pass rates on the National Teacher Exam (PRAXIS). The apparent drop in pass rates from 1990-91 to 1991-92 is due to changes in state policy which raised the cut-off scores for passing the exam. A total of 2,646 students successfully completed the PRAXIS examination in 1998-99.

**Goal D: By the year 2000, Tennessee will have improved both the quality and quantity of research and public service so that the state is recognized for its superior research and service activities.**

**Benchmarks:**

- 1. Expenditures on research at universities from restricted accounts will reach \$230,000,000 by the year 2000.**

**Figure 33: Research Expenditures at Public Universities**

	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	% Change 1992-1999
Expenditures (X 1000)	\$111,455	\$117,770	\$114,635	\$116,494	\$118,220	\$118,162	\$126,789	13.8%
Adjusted for Inflation *	\$111,455	\$115,179	\$108,903	\$107,524	\$106,280	\$103,746	\$109,165	-2.0%

\* Adjusted to reflect 1992 constant dollars.

Figure 33 contains data showing growth in research expenditures at public universities. The increase in 1998-99 over 1992-93 was almost 13.8%. These expenditures are from grants and other private sources and do not include money from state appropriations for higher education. However, it should be noted that, after adjusting for inflation, there has been little change in expenditures. Changes in federal appropriations to specialized research programs can significantly impact these trends.

- 2. Expenditures on public service at universities from restricted accounts will reach \$43,000,000 by the year 2000.**

**Figure 34: Public Service Expenditures**

	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99	% Change 1992-1999
Expenditures (X 1000)	\$38,539	\$40,112	\$43,884	\$47,115	\$46,174	\$43,954	\$48,922	26.94%
Adjusted for Inflation *	\$38,539	\$39,230	\$41,690	\$43,487	\$41,510	\$38,592	\$42,122	9.29%

\* Adjusted to reflect 1992 constant dollars.

Figure 34 shows the growth in public service expenditures since 1992-93. Growth of expenditures during this period has exceeded that of research expenditures. These expenditures are from grants and other private sources and do not include money from state appropriations for higher education. It should be noted that, after adjusting for inflation, there has been a recent decline in public service expenditures.

**Figure 35: Research and Public Service Expenditures, Independent Institutions**

Expenditures (X 1000)	1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	% Change 1992-1997
Research	\$78,968	\$85,063	\$93,793	\$95,369	\$98,759	\$125,242	58.60%
Public Service	\$57,927	\$65,468	\$76,175	\$80,242	\$104,259	\$115,666	99.67%

Tennessee's independent colleges and universities play an important part in research and public service. Figure 35 depicts expenditures for research and public service for all independent institutions since 1991-92. As in the public sector, growth of expenditures in public service has exceeded that of research. The expenditure of research and public service efforts is not evenly distributed across all institutions in the independent sector; the bulk of the expenditures occurs at three institutions: Vanderbilt University, Meharry Medical College, and Southern College of Optometry.

**Goal E: By the year 2000, Tennessee's higher education institutions will be able to compete for the very best faculty and staff.**

**Benchmarks:**

- 1. By the year 2000, faculty salaries at Tennessee public institutions will be above those of their peers in other states.**

Figure 36 gives 1998-99 salary comparisons with peer institutions. The composition of peer groups underwent a major review and revision in 1994. In this review, 10 peer institutions were selected for these four groups/institutions based on a number of objective criteria. Peer institutions were limited to the 15 member states of the Southern Regional Education Board (SREB). For 1998-99, average salaries of Tennessee public institutions are below their peers.

**Figure 36: 1998-99 Salary Comparisons**

	<b>Average Salary</b>	<b>Peer Average</b>	<b>% of Peer</b>
Univ. of Tennessee, Knoxville	\$59,286	\$63,901	<b>92.78%</b>
University of Memphis	\$51,478	\$57,839	<b>89.00%</b>
All Other Universities	\$47,004	\$49,240	<b>95.46%</b>
All Two-Year Institutions	\$36,064	\$40,383	<b>89.30%</b>

**Figure 37: Percentage Comparisons**

	<b>1991-92</b>	<b>1992-93</b>	<b>1993-94</b>	<b>1994-95</b>	<b>1995-96</b>	<b>1996-97</b>	<b>1997-98</b>	<b>1998-99</b>
Univ. of Tennessee, Knoxville	90.10%	94.90%	93.82%	98.73%	95.48%	96.58%	93.45%	92.78%
University of Memphis	94.30%	96.44%	92.48%	100.83%	93.18%	93.29%	91.19%	89.00%
All Other Universities	95.80%	100.97%	95.58%	106.27%	100.07%	99.98%	97.48%	95.46%
All Two-Year Institutions	98.50%	98.88%	99.39%	105.55%	96.69%	97.40%	94.86%	89.30%

Figure 37 shows percentage comparisons in faculty salaries since 1991-92. Caution should be exercised in comparing percentages across years, due to the changes in the makeup of the peer group composite. While there was some early progress, there has been a decline in recent years in faculty salaries among Tennessee public institutions relative to their peers. This decline can significantly impact the recruitment of new faculty and the retention of existing faculty.

**Goal F: By the year 2000, Tennessee's higher education institutions will have garnered sufficient resources to achieve the high quality and access envisioned in the goals of *Tennessee Challenge 2000*.**

**Benchmarks:**

- 1. By the year 2000, Tennessee's public higher education institutions will merit a proportion of state dollars above that currently received.**

**Figure 38: State Appropriations for Higher Education**

1991-92	1992-93	1993-94	1994-95	1995-96	1996-97	1997-98	1998-99
\$676,442,900	\$758,406,200	\$825,932,300	\$880,032,200	\$904,276,979	\$906,661,100	\$909,845,000	\$967,968,600

Tennessee's public higher education institutions have always worked diligently to merit the confidence placed in them by the citizens of Tennessee and their elected representatives. An example of Tennessee's commitment to higher education can be found by examining the changing state appropriation for higher education. Figure 38 is based on the latest available data from the Department of Finance and Administration. Tennessee's General Assembly continues to support higher education. In a national study, Tennessee was found to be second in the nation in the percentage increase in state spending for higher education over the years 1991 and 1992. In more recent years, the percentage of state appropriations for higher education has declined from 19.7% to 15.1% of total appropriations.

**Financial Health of Independent Colleges and Universities**

The financial health of independent colleges and universities is critical to these institutions' continued contributions to higher education in Tennessee. Figure 39 presents four key financial ratios that are used to evaluate the financial health of higher education institutions. The first of these, the net revenue ratio, is calculated by subtracting the total current expenditures from the total current fund revenues and dividing the result by the total current expenditures. A positive ratio of one to three percent over a three to five year trend line indicates a strong financial condition. This ratio has hovered around 1 percent until 1995-96 when there was a large increase in the ratio.

**Figure 39: Key Financial Ratios, Independent Colleges**

Year	Net Revenue Ratio	Tuition & Fees Contribution Ratio	Gifts and Grants Ratio	Instructional Cost Ratio
1987-88	-0.02%	44.95%	15.48%	29.63%
1988-89	2.19%	45.38%	14.80%	28.73%
1989-90	0.15%	45.52%	13.53%	33.11%
1990-91	1.79%	46.17%	13.25%	32.90%
1991-92	1.84%	45.50%	13.17%	33.57%
1992-93	1.07%	46.33%	12.81%	31.75%
1993-94	-0.22%	47.14%	12.05%	32.65%
1994-95	0.76%	48.26%	12.50%	33.34%
1995-96	6.84%	46.62%	11.47%	32.65%

\* 1997-99 pending due to changes in IPEDS reporting.

The second ratio, tuition and fees contribution, is calculated by dividing total tuition and fee revenue by total educational and general expenditures. Ideally, this ratio should decline over the long term as gifts and endowments are developed to contribute to educational and general expenditures. A dramatic rise in this index might signal an over-reliance on tuition revenue to support the institution. Most liberal arts colleges with small endowments maintain a ratio of between 70 and 80 percent on this index. There was a decline in this ratio in 1995-96.

The third ratio, gifts and grants, results from dividing the revenue from private gifts and grants by total educational and general expenditures. Most liberal arts colleges with small endowments range between 10% and 15% on this index. Falling below 10% is a sign of an

over-dependency on tuition revenue. The decline in the gifts and grants' ratio in Tennessee is reflective of a decrease in support from private sources at many independent institutions, over the last six years. It is likely that this decrease was a result of the downturn in the economy in earlier years. In more recent times, the downturn is reflective of the increasing competition for private gifts and grants from a variety of sources.

The fourth ratio, instructional cost, is calculated by dividing the direct expenditures for instruction by total educational and general expenditures. This index reflects an institution's ability to maintain academic quality through its shifting of resources to support the instructional program over a given time period. This should be a relatively stable index. Colleges seeking to strengthen their academic quality should be increasing their instructional cost ratio as time passes. Most liberal arts colleges with small endowments maintain a ratio on this index of 30% to 40%. In Tennessee, more campus resources have been shifted to faculty salaries and instructional materials to continue the institutions' emphasis on teaching. This ratio declined in 1995-96.

A chart detailing the figures used in these calculations is found in Appendix T.

### Declared Enrollment Capacity of Independent Institutions

A survey of independent institutions conducted by the Tennessee Independent Colleges and Universities in Fall 1998 requested campus administrators to estimate their enrollment capacity. The resulting composite figure was 52,418 FTE. Since the total FTE enrollment of independent institutions in Fall 1998 was 40,965, the resulting difference is 11,453 students. A complete listing of the institutional estimates and the supporting data is found in Appendix U. At some institutions, the declared capacity would result in doubling the student-to-faculty ratio and in others the declared capacity would result in a dramatic reduction in the ratio of students to available instructional space.

Of the independent institutions' 25,725 spaces in residence halls available in Fall 1998, 22,640 were in use. This left 3,085 spaces vacant, a vacancy rate of 11.99%.

### Student Financial Aid

Tennessee Student Assistance Award Program - Figure 40 is an analysis of the distribution of funds (\$20,647,769) under the Tennessee Student Assistance Award for 1999-00.

**Figure 40: Tennessee Student Assistance Awards, 1999-00**

Category of Institutions	Fall 1999	Number of Awards	% Receiving Awards	% of Total Awards	Total Amount of Awards	% of Total Amount	Average Award
	Undergraduate Enrollment						
Independent Institutions	40,274	3,001	7.45%	16.69%	\$8,026,490	38.87%	\$2,675
Public Two-Year	75,964	4,146	5.46%	23.05%	1,844,990	8.94%	445
Public four-year	94,908	9,486	9.99%	52.75%	9,802,382	47.47%	1,033
Technology Centers	31,035	577	1.86%	3.21%	121,101	0.59%	210
Other		733		4.30%	852,806	4.13%	1,103
Totals - as of 01/12/2000		17,983		100.00%	\$20,647,769	100.00%	\$1,148

On May 31, 1993, Governor McWherter signed a bill of the General Assembly titled "The Tennessee Student Assistance Awards Restoration Act." The stated purpose of this act was "to restore the value of the Tennessee Student Assistance Award maximum grant to approximate its value in 1981 constant dollars, and to provide financially needy students enrolled at Tennessee independent colleges and universities with a state grant of sufficient size to reduce the impact of institutional price on their higher education enrollment decision." The Act linked the maximum award under TSAA to 50% of the average amount of

out-of-state tuition and fees charged by public four-year institutions. In May 1996, the General Assembly appropriated \$2.75 million for this purpose in 1996-97. Figure 40 provides an overview of student enrollment in Tennessee post-secondary institutions for 1998-99 and the distribution of TSAA awards and funds. Private independent institutions enrolled 16.69% of TSAA recipients (3,001 students) and 38.87% of TSAA funds, thanks in part to the "Restoration Act," which allowed the average award to increase to \$2,675. Figure 41 is a study of trends in the distribution of TSAA awards and funds since 1990. The number of student awards at private independent institutions in 1998-99 continued to show a steady decline--a drop of 3.1% since 1991-92. Numbers of recipients attending public universities have remained rather consistent, but state community colleges and technology centers have increased their participation—up by 4.8% and 1.4%.

**Figure 41: Tennessee Student Assistance Awards, 1991-92 to 1998-99**

Category of Institutions	Percentage of Numbers of Awards								% Change 1991-1999

Ned McWherter Scholars Program - This program encourages academically talented Tennessee high school graduates to attend college in Tennessee. Applicants for the scholarships must have at least a 3.5 unweighted cumulative grade point average and be in the top 5% of scores on national college entrance tests. The total award is \$6,000 per year. Of this amount, half comes from state funds and half from the institution that enrolls the student. The student must attend college full-time and maintain a 3.2 cumulative grade point average to remain eligible for the award. Figure 42 shows the institutions in which recipients of the grants were enrolled in 1998-99. Approximately 35% of these awards went to students enrolled in independent institutions.

**Figure 42: Ned McWherter Scholars Program (Total of 213 recipients in 1998-99)**

Institution	Number of Students	Institution	Number of Students

Tennessee Teacher Loan/Scholarship Program - The Teacher Loan/Scholarship Program was authorized by the Comprehensive Education Reform Act of 1984 to encourage outstanding students to enter the teaching profession and to allow existing teachers to retrain in an academic area in which there was a shortage of teachers. Until the 1995-96 academic year, these forgivable loans were available to Tennessee residents who agreed to teach in the Tennessee public K-12 schools upon graduation. This program is now in phase out, and currently is available only to prior recipients of the awards. Figure 43 shows the institutions in which these prospective teachers were enrolled in 1998-99. Approximately 22% of these students were enrolled in independent institutions. Awards for the 1998-99 academic year totaled \$43,904 for 18 renewal applicants.

Tennessee Technological University	2		

Minority Teaching Fellows Program - This program was established to encourage talented minority Tennesseans to select teaching as a career choice. The award is \$5,000 per year and a maximum of \$20,000 over 4 years. Recipients incur an obligation to teach in a Tennessee public school one year for each year of the award. Figure 44 shows the institutions in which these prospective teachers were enrolled in 1998-99. Approximately 14% of these students were enrolled in independent institutions.

Teacher Loan Program for Disadvantaged Areas of Tennessee - This program was authorized by the Tennessee General Assembly as an incentive for outstanding students to enter teaching. Until the 1995-96 academic year, these forgivable loans were available to a maximum of 20 students who agreed to teach in a public K-12 school located in a disadvantaged geographic area of the state. This program has been phased out. No awards were made in 1998-99.

Tennessee Teaching Scholars Program - This program was established by the Tennessee General Assembly in 1995 to encourage exemplary students to enter the teaching force. Participation in this program is limited to college juniors, seniors, and post-baccalaureate students admitted to a state approved teacher education program in Tennessee. Recipients of these awards incur an obligation to teach one year in a Tennessee public school for each year the award is received, or repay the loan with substantial interest. In 1998-99, the

program awarded \$369,000 to 134 students. Figure 45 shows the institutions in which these prospective teachers were enrolled for the 1998-99 academic year. Approximately 33% of these students were enrolled in independent institutions.

Contract Education Program - Tennessee contracts with independent colleges and universities within the state to provide spaces for Tennessee residents in programs that are needed by the state and which are not available in public institutions. Some of these spaces are provided through the Southern Regional Education Board's Regional Contract-for-Services Program and others are contracted directly with institutions. Figure 46 shows the trends for the schools in Tennessee that participate in the Contract Education Program, the numbers of positions contracted for, and the total amount of contracted services. The total number of positions has declined from 182 in 1995-96 to 166 in 1999-00. This decline has been due to across the board cuts in these programs as a result of reduced state appropriations. Since 1991-92, total funding for this program has declined.
